A: I seem to recall that this project (the compilation) is placed at SourceForge. Just google "HRYTE" and the sourceforge project should be among the first hits. Supports, warnings and warnings about understanding your role in the process: Risks related to the study: Risks associated with using your current medications, including possible drug interactions: The risk of death with the use of marijuana is not known. People may use marijuana for a variety of conditions and their response may range from beneficial to dangerous. You will be required to give a blood sample and undergo an hour-long EEG for in-depth examinations to determine the proper dose of cannabis to provide you with the health benefits you seek. The results of these tests will be used in determining the medical dosage of cannabis to provide you with the safest and most effective treatment for your condition(s). Major Side Effects: There may be effects on the nervous system or the lungs. If you have a history of seizures, are nursing or pregnant, or have sleep apnea, your healthcare professional may advise you against using cannabis. Consult with your healthcare provider if you are using cannabis for a long-term condition. Warnings: Do not use this product if you are pregnant. Do not use cannabis and other cannabinoids (phytocannabinoid-rich dietary supplements) concurrently. Do not use any cannabis products at high doses. Your healthcare professional should be consulted if you are taking other medications, supplements or need any other treatment for a medical condition. Discuss any new medications or medical conditions with your healthcare professional. Use of this product may cause drowsiness and minor dizziness. Stop use and consult your healthcare professional if you experience blurred vision, increased anxiety, dry mouth, or trouble breathing. This product is not intended to diagnose, treat, cure, or prevent any disease. Contraindications: Do not 3da54e8ca3
